
We will **confirm** the necessary steps for securing your **Active Directory** environment

*Whether you realize it or not, access to your systems, your data, as well as your operations, depend on successfully managing your company's credentials vault. **Active Directory** contains the keys to your kingdom and is a primary target for ransomware and hackers.*

Who are we?

Founded in 2017, Indominus is an IT consulting firm specializing in infrastructure.

Indominus, from the Latin word for *unbeatable*, reflects our culture of redefining what is possible.

Born in the cloud, we are continuously developing tools that allow us to dramatically reduce the cost of IT.

We are a Microsoft Partner and a service provider for Azure and Office 365

Here is what makes us different:

- We're faster and more efficient
- We provide clear performance indicators
- We create crystal clear roadmaps
- We give step-by-step guidance that makes sense
- We produce a clear set of risks and related costs
- Our pricing is highly competitive
- A *full refund* of the analysis phase for any mandate to optimize Active Directory

We have a single-minded vision: *to ensure that everyone has access to high-quality IT consulting for a reasonable price!*

Indominus
FIERCE IT CONSULTING

IS YOUR IDENTITY SECURE ENOUGH?

What we offer

We offer a high-level analysis of your infrastructure based on a highly condensed 3-day mandate.

Here is the list of points we will check for you:

- Full list of OS versions along with the vendor's current support policy
- Directory structure
- Structure of the core enterprise sites
- List of inactive accounts and the age of each password
- Health of each service, including DDNS, DHCP and Replication
- Assessment of domain controller stability
- Assessment of the risk of attack and the ability to recover
- Evaluation of security practices (*Group policies*)
- High-level catalogue of AD objects
- High-level architecture recommendations

Once this analysis has been completed, you will have the means to optimize and secure the infrastructure that enables your business.

What you will get

- Our architectural recommendations for AD
- A health score for each service
- A plan of action for making AD secure
- A mitigation plan
- An analysis of the impact in the event of an outage or breach

Reserve your spot today!

Don't spend any more time living under the spectre of risk. Get a full analysis of the health of your Active Directory and stop hackers before they start.

Every analysis consists of the following:

- A 3-day mandate, with 1 – 2 days spent on-site
- A full collection of data
- An executive report evaluating your environment

Get started today!
