

We will assess the readiness of your infrastructure

*Whether you're migrating your server farm, monitoring your infrastructure, managing virtual workstations, or just creating site redundancy, we can assess the true cost of **Azure** to your business.*

Who are we?

Founded in 2017, Indominus is an IT consulting firm specializing in infrastructure.

Indominus, from the Latin word for *unbeatable*, reflects our culture of redefining what is possible.

Born in the cloud, we are continuously developing tools that allow us to dramatically reduce the cost of IT.

We are a Microsoft Partner and a service provider for Azure and Office 365

Here is what makes us different:

- We're faster and more efficient
- We provide clear indicators
- We create crystal clear roadmaps
- We give step-by-step guidance that makes sense
- We produce a clear set of risks and related costs
- Our pricing is highly competitive
- A full refund of the analysis phase for any mandate to optimize Active Directory

We have a single-minded vision: *to ensure that everyone has access to high-quality IT consulting for a reasonable price!*

FIERCE IT CONSULTING

ARE YOU READY FOR AZURE?

What we offer

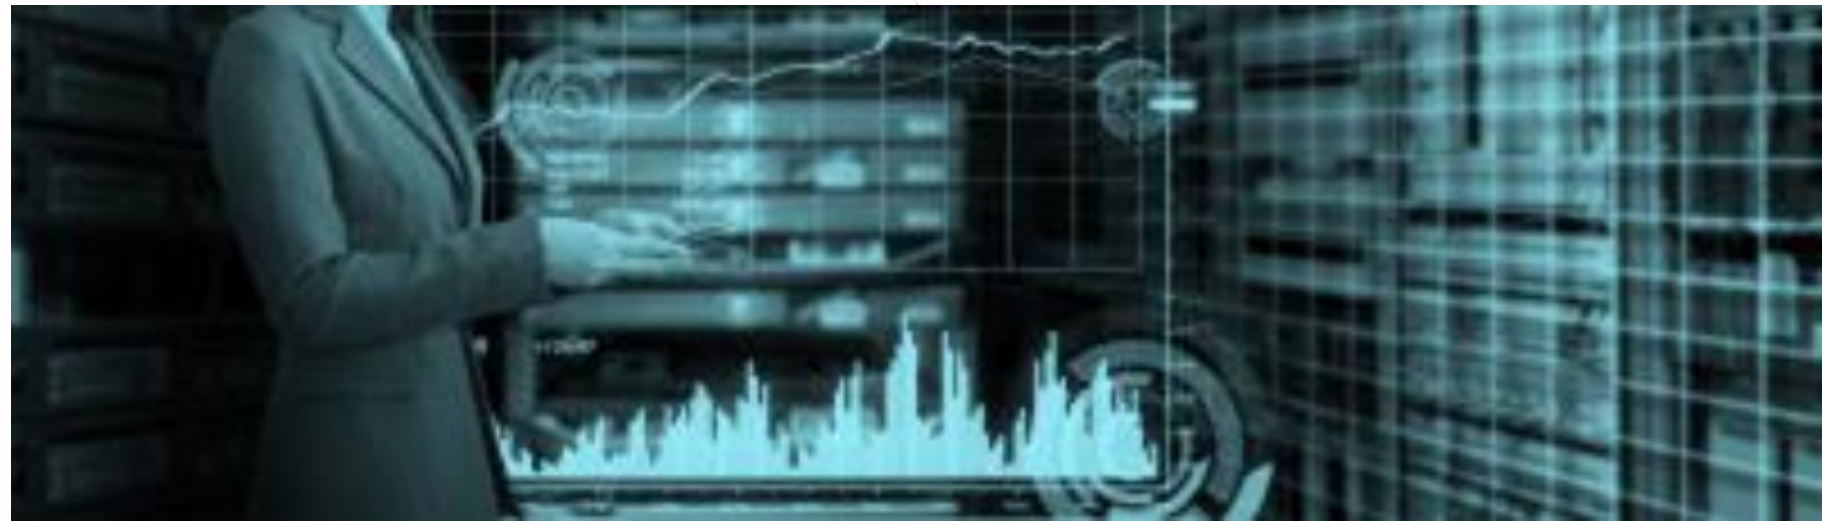

We offer a high-level analysis of your infrastructure and of the steps necessary to complete your Azure strategy based on a highly condensed 5-day mandate.

- Validation of business requirements
- Assessment of existing services
- Security analysis of credentials management
- Analysis of the health of existing communications systems
- High level analysis of the servers requiring migration
- Full evaluation of server stability
- Discussion with your stakeholders concerning the mitigation of any and all risks associated with a cloud migration
- Full set of actions needed to bring all of your system administrators up to speed on the new platform

Once this analysis has been completed, you will have the means to put your new Azure data center in place

What you will get

- The key steps you need to take to prepare for Azure
- A clear roadmap for migration to the **cloud**
- A list of risks that must be addressed prior to migration
- A thorough cost analysis of your transformation

Reserve your spot **today!**

Don't spend any more time waiting to transform your business. Get a full analysis of your Azure strategy and eliminate your roadblocks to success.

Every analysis consists of the following:

- A 5-day mandate, with 1 – 2 days spent on-site
- A full collection of data
- An executive report evaluating your environment
